

4th International Conference on the Chemistry and Physics of the Transactinide Elements

September 5 – 11, 2011, Sochi, Russia

- Physics experiments – synthesis and properties;
- Spectroscopy;
- Nuclear physics theory;
- Experimental chemical studies;
- Theory on chemical properties of the transactinides.

International Advisory Committee:

S. Dmitriev (JINR, Dubna)	Yu. Oganessian (JINR, Dubna)
C. Düllmann (Germany)	V. Pershina (Germany)
H. Gäggeler (Switzerland)	P. Pykko (Finland)
D.C. Hoffman (USA)	Qin Zhi (People's Rep. of China)
S. Hofmann (Germany)	J. Roberto (USA)
M. Itkis (JINR, Dubna)	M. Schädel (Germany)
J.V. Kratz (Germany)	A. Sobiczewski (Poland)
M. Leino (Finland)	M. Stoyer (USA)
Y. Nagame (Japan)	A. Türler (Switzerland)
H. Nitsche (USA)	

Organized by Joint Institute for Nuclear Research
Supported by Russian Foundation for Basic Research

Co-chairmen: S. Dmitriev, YU. Ts. Oganessian (JINR, Dubna)

Scientific secretary: R. Kalpakchieva (JINR Dubna)

**4th INTERNATIONAL CONFERENCE ON THE CHEMISTRY
AND PHYSICS OF THE TRANSACTINIDE ELEMENTS**

Sochi, Russia, 5-11 September 2011

List of participants

Belgium – 1
China – 3
Finland – 1
France – 2
Germany – 14
India – 2
Japan – 11
New Zealand – 1
Norway – 1
Poland – 1
Russia – 2
Switzerland – 8
UK – 3
USA – 7
JINR, Dubna – 31

Total: – 88

United Nations Educational, Scientific and Cultural Organization
International Union of Pure and Applied Chemistry

“Chemistry – our life, our future”

The 100th anniversary of the Nobel Prize in
Chemistry awarded to
Marie Skłodowska-Curie

*Special talk given by Prof. Adam Sobiczewski,
Instytut Problemów Jądrowych, Warszawa*
